

Notice of Public Hearing and
Determination of Non-Significance (DNS)

Description of Proposal: The applicant is proposing a 1,248 square foot building for a single-family residence in the northeast corner of the subject site. The site is 21, 960 square feet and is composed of two tax parcels. Approximately 80% of the site contains a wetland. The remainder of the site is a required buffer for this wetland. However, MLMC Section 17.10.100 allows an applicant to pursue a reasonable use exception. To prepare for the building, the applicant proposes to bring in fill. The total disturbance area will be approximately 2,700 square feet. A silt fence will be placed at the disturbance limits prior to construction. Prior to the removal of the silt fence, a fence or wall will be built to mark the edge of the protected area. To mitigate the impact of clearing vegetation, bringing in fill, and the creation of impervious surfaces, the applicant proposes to add vegetation in the wetland buffer. These plantings will be monitored and replaced, if necessary, over a period of five years.
